EXECUTIVE SUMMARY

Dedicated and research-driven Education Specialist with expertise in inclusive education, curriculum analysis, and educational technology integration. Possesses a strong academic background in quantitative and qualitative research methodologies, policy analysis, and special educational needs (SEN) frameworks. Proven ability to evaluate complex educational systems, design inclusive learning models, and formulate evidence-based policy proposals.

CORE COMPETENCIES & SKILLS

Educational Research

Constructivist & Positivist Paradigms, Mixed-Methods Design, Phenomenology, Grounded Theory, Measurement & Scaling.

Policy & Governance

National Education Policy Analysis, EdTech Integration Strategies, Public Sector Governance.

Inclusive Education & SEN

IEP, Universal Design for Learning (UDL), Disability Inclusion Frameworks, Assistive Technology Evaluation.

Technical & Professional

Statistical Tools & Data Analysis, Academic Writing, Strategic Program Evaluation.

EDUCATION

Bachelor of Education (B.Ed. Honors)

Institute of Education and Research (IER), University of Dhaka, Bangladesh

Specialization: Special Educational Needs (SEN), Curriculum Evaluation, Educational Technology.

Key Focus: Advanced Research Methodology, Inclusive Pedagogies, Educational Policy Formulation.

RESEARCH & KEY PROJECTS

Institutional Analysis of Special Educational Needs Units (SENU)

Field Evaluation & Observational Research

- Conducted structured field evaluations and observational research across key rehabilitation and special education institutions in Bangladesh (including CRP Savar and SWID Bangladesh).
- Assessed the practical implementation of UDL principles and assistive technology integration for learners with intellectual disabilities and autism.

Research Proposal: EdTech Integration in Bangladesh

2024 - 2026

Impact of Technology on Education in Bangladesh — Opportunities, Challenges & Future Prospects

- Formulated a comprehensive research framework, literature review, and methodology examining digital literacy and EdTech infrastructure in Bangladeshi public schools.
- Analyzed policy constraints and structural opportunities for Smart Bangladesh 2041 educational initiatives.

PROFESSIONAL EXPERIENCE

Graduate Student Researcher / Field Observer

2022 - 2026

Institute of Education and Research (IER), University of Dhaka

- Executed institutional evaluations, stakeholder interviews, and pedagogical analyses across urban public and specialized school environments.
- Synthesized national education policies and draft legislative acts into structured policy briefs and institutional summaries.
- Collaborated on observational frameworks evaluating disability inclusion metrics in classroom settings.

CERTIFICATIONS

2026 — Inclusive Pedagogy & Assistive Technologies Workshop, Dhaka

2025 — Advanced Research Methodology & Data Analysis

PORTFOLIO CONTINUED

KEY STRENGTHS

Field-Based Evaluation

Direct, structured observation of institutional practice rather than desk-based assessment alone.

Cross-Sector Collaboration

Comfortable working across academic, governmental, and NGO/rehabilitation settings.

Policy Translation

Turning dense legislative and policy language into actionable institutional briefs.

Evidence-Based Design

Anchoring inclusive learning models in measurable, research-backed frameworks.

TEACHING & RESEARCH PHILOSOPHY

Approaches education as a field where rigorous research and lived institutional experience must inform one another. Committed to designing learning environments where inclusion is a structural principle rather than an accommodation, and to grounding every policy recommendation in direct field observation across public and specialized school settings.

AREAS OF INTEREST

Disability-inclusive curriculum design, national EdTech policy formation, and assistive technology access in under-resourced and rural school systems.
